- **HALKIDIKI PITTED OLIVE SIZE -S. MAMOTH-91/100 (PLAIN)**

Halkidiki olives are large, green olives from Greece's Halkidiki region. They have a unique shape and taste. Halkidiki olives are less bitter and have a mild, buttery flavour, making them popular among olive enthusiasts. When harvested early, they are bright green, and as they mature, they turn black-purplish.

To make them ready to consumption, they are typically cured in brine, a mixture of water, sea salt, and rarely vinegar. This process can take several weeks to several months, depending on the desired taste and texture.

Like all olives, Halkidiki olives are a good source of monounsaturated fats, which are beneficial for heart health. They also contain antioxidants, including vitamin E and polyphenols, known for their potential to reduce inflammation and protect cells from damage.

Halkidiki olives are prized for their size, taste, and versatility in cooking. They're a popular snack and can be used in various dishes, adding a Mediterranean touch to any meal. They're great as table olives or Greek salads, and we offer the largest size for real fine cocktails.

**Popular for:** Cocktail, Table

## Pickles

- **GORDOS (FAT CAPERS)**

Capers are available in different sizes, ranging from tiny ones as small as petite green peas to larger ones resembling small olives. Generally, the smaller capers have a delicate texture and better taste in salads. Conversely, larger capers are more acidic and should be used low in quantity. However, some chefs prefer the stronger flavour of larger buds, especially for cooking.

- **PEQUINITOS (SMALL CAPERS)**

Capers are available in different sizes, ranging from tiny ones as small as petite green peas to larger ones resembling small olives. Generally, the smaller capers have a delicate texture and better taste in salads. Conversely, larger capers are more acidic and should be used low in quantity. However, some chefs prefer the stronger flavour of larger buds, especially for cooking.

- **BABY CORN**

Baby corn is a popular vegetable that can be enjoyed as a snack, a side dish, or an ingredient in Asian cuisine, particularly stir-fries combined with other vegetables, herbs, and spices. The crunchy texture of baby corn adds a unique crunchy touch to fresh salads and is the best option for barbeque.

- **SILVER ONION**

Did you know that pickled onions are not only tasty, but also have a lot of healthy nutrients? They are low in calories and fat, and have zero cholesterol. So, they are perfect for adding to your salads or as a side dish. Yum!

- **MAGIC GARLIC**

Garlic is fantastic and well-known for its benefit, but some worry about its strong taste and potential for bad breath. No worries! Try this pickled garlic marinade with authentic recipe. You can use it as a yummy side dish, in salads, or as a natural remedy. Enjoy!

- **Fiesta**

We know how much fun it is to snack with family and friends, so we want to lend a hand. Take a peek at an extraordinary mix of pickles with citrus touch.

**Ingredients:** Garlic, Onions, Big capers
